## **DRIVE** for a Better Future in Education

The Orlando Science Center's mission is to *inspire science learning for life*. We create unique experiences that encourage science, technology, engineering, and math (STEM) education using hands-on exhibits and interactive programming. pAs the most popular museum in Central Florida, the Science Center served 413,000 guests last year, including 90,000 students through fieldtrips and outreach programs.

With your support, we will work as a team to create an exciting golf tournament while raising funds to support the educational initiatives of the Orlando Science Center. Proceeds

will benefit the Science Center's operations including the continued development of creative and unique programming that will inspire and encourage the scientists, engineers and innovators of tomorrow.

We welcome back our loyal supporters from past years and invite new sponsors and players to join us for the 31st Annual Cosmic Golf Challenge. Not only will your donation have a direct impact on the children of Central Florida, but it is also an opportunity to showcase your company to Orlando's business leaders and professionals.
