

SCIENCE ON TAP

CRAFT DINNER

Dear Friends and Community Supporters,

The Young Professionals for Orlando Science Center are delighted to invite you to the **Science on Tap: Craft Dinner** event on Wednesday, May 12th, 2021. This outdoor reception celebrates all things “craft”—food, beer, and music and brings together Orlando’s diverse network of up and coming business leaders as well as friends and associates from far and wide. During this special evening guests will receive a select craft beer pairing with four deliciously prepared fresh courses. In between courses there will be live music and beer connoisseurs and casual drinkers will learn how each tasting was suitably paired.

Proceeds raised from this event benefit Orlando Science Center’s mission to *inspire science learning for life* and ensure we can create new and stimulating programs to keep curious minds learning and provide access to educational resources for all members of our community.

This is an exciting opportunity to engage with a new audience as well as other local businesses and professionals in the region. Orlando Science Center has a successful history of designing, planning and hosting an array of events onsite and in the community that provide a high level of exposure for our partners. Support of and partnership with the Young Professionals for **Science on Tap: Craft Dinner** this spring will enhance your company’s profile while benefiting the important work the Science Center does in the community.

Sponsorships are available from \$500 to \$5,000 and include valuable benefits such as high-profile promotion, behind the scenes tours, tickets to exclusive events at Orlando Science Center, and tickets to Craft Dinner. The event will take place outdoors on our spacious terrace that provides stunning views of downtown Orlando as well as feature a raffle/auction, live music, and more!

To ensure a safe and enjoyable celebration the **Science on Tap: Craft Dinner** will take place in an outdoor setting and will be moved indoors should there be inclement weather. Tables will be reserved for guests based on the number in their party and each table will be spaced approximately 7-8 feet apart. Registrations are available for private tables, exclusively to the registrant and their guest(s). Guests and event staff are expected to follow Orlando Science Center’s comprehensive health and safety guidelines which can be reviewed here: www.osc.org/reopening-plan.

Please join us and the Young Professionals in support of Orlando Science Center. Thank you for your consideration—we look forward to hearing from you.

Sincerely,

Lindsay Winter
