ORLANDO SCIENCE CENTER

Inspire Science Learning for All

Learning Framework

We create our learning experiences with these principles in mind:

IMAGINE

- Inspire imagination through storytelling.
- Playful experiences are memorable experiences.
- Present open-ended problems with many solutions.

EXPLORE

- Provide opportunities for safe play and safe risk-taking.
- Viewing failure as an opportunity leads to resilience in life.
- Empower learners to direct their own experience.

ACT

- Encourage collaboration among learners of all audiences.
- Motivate conservation action through impactful experiences.
- Intentionally design experiences to be accessible for all.

CONNECT

- Create meaningful connections across subject areas.
- Accept (and expect!) that learners' different perspectives inform their interactions.
- Use real-life applications to encourage creative problem-solving.

THINK CRITICALLY AND USE SCIENCE TO STRENGTHEN COMMUNITIES

Learning Through Play

Five characteristics we intentionally design into every experience.

JOYFUL

ACTIVELY ENGAGING

MEANINGFUL

SOCIALLY INTERACTIVE
