ACA ACCREDITED

In addition to developing an engaging and educational curriculum, our team is trained and accredited by the **American Camp Association** to ensure a safe, healthy environment for all campers.

*Preschool is a Licensed DCF Center C09OR0729

YOUTH VOLUNTEERS NEEDED!

Junior Camp Counselors

Experience OSC Summer Camps in a new and exciting way! If you enjoy science and working with children and are 15-17 years old, contact OSC to learn more about summer volunteer opportunities.

For more information, contact our Manager of Volunteer Resources at **407.514.2070** or email volunteer@osc.org. To apply, please visit osc.org/youth-volunteers

SAVE ON SUMMER CAMPS NOW!

OSC Members Special Discount

Membership must be active and valid from the date of purchase through the final date of all selected camps. Plus, members enjoy free parking, discounts in 4Roots Cafe and The Science Store, admission to more than 300+ museums worldwide. Visit osc.org/membership for a complete list of benefits. Join or renew by calling **407.514.2158**, or visit www.osc.org.

Multi-Week Discount

For more information, call Reservations at **407.514.2112**.

Sibling Discount

For more information, call Reservations at **407.514.2112**.

EXCLUSIVE MEMBER PRE-SALE

From January 1-31, OSC Members have exclusive access to registration for 2026 Summer Camps and also receive a 10% discount to your already reduced member rate. For more, visit osc.org/summer-camps.

2026 SUMMER CAMPS

RESERVATION INFO & PRICING

INSPIRE SCIENCE LEARNING FOR ALL

OSC Summer Camps provide a safe, fun, nurturing environment that promotes hands-on learning while fostering excitement in science, technology, engineering, and mathematics (STEM). Our program encourages 21st century skills such as critical thinking, problem solving and communication necessary for our children to thrive. In an era dependent on innovation and creativity, our programs provide children with a platform for cultivating their interests while working collaboratively with their peers to develop lifelong skills that will enrich their lives and future community.

REGISTER ONLINE

- Visit us online at osc.org/summer-camps.
- Camps should be selected by the grade your child will enter in Fall 2026.
- Confirmation materials will be provided after completing registration.
- Questions? Call Reservations at **407.514.2112**.

TUITION

- Tuition includes all camp materials and one camp t-shirt per week.
- Payment is due at the time of registration. Early and Late Care are available for an additional fee. OSC accepts Visa, MasterCard, Discover, and e-checks. Cash is accepted in person only. Please call Reservations at **407.514.2112** for an appointment.
- Extra camp t-shirts may be purchased for an additional fee.
- Lunch and snack may be purchased for an additional fee.

EARLY & LATE CARE OPTIONS

- Early and Late Care are available for an additional purchase of \$100.00 for the week. (Excluding OSC Camp at 4Roots Farm)
- Early Care runs from 7:30 – 8:30 am and Late Care runs from 4:30 – 5:30 pm every day of Camp.
- Onsite Camps - A fee of \$2.00 is charged per camper/per minute after 5:30 pm.
- Offsite Camps - A fee of \$2.00 is charged per camper/per minute after 4:30 pm.

REFUND & CANCELLATION POLICY

Refunds will only be issued on cancellation requests made 2 weeks prior to the start of your camp session. A 20% processing fee is deducted from all refunds. There are no partial refunds for missed days of class. Camps may be rescheduled for a \$10 fee up to two times but no refunds will be processed for rescheduled camps. Camps must be rescheduled two business days before the start of the Camp.

IMPORTANT PHONE NUMBERS

If you need to reach camp staff during the day, call the Club House at **407.514.2235** or Reservations at **407.514.2112**.

2026 SUMMER CAMPS

ADDITIONAL INFORMATION

OPEN HOUSE

Saturday, May 2, 2026 from 10:00 am to 2:00 pm

Caregivers will have an opportunity to ask questions, register for camp, meet camp staff and explore the (K-6) classrooms.

WHY ARE CAMPS BROKEN DOWN BY GRADE LEVELS?

Orlando Science Center Summer Camps are designed to provide our campers with a fun, safe and developmentally appropriate program. To promote teamwork and provide the best experience for all campers, please register children for Camps offered to the grade level they will enter in Fall 2026. OSC reserves the right to move campers into camps appropriate for their level.

ADDITIONAL INFORMATION

- Camp hours are 9:00 am – 4:00 pm.
- Labeling items such as lunch boxes with the camper's name is highly encouraged. OSC is not responsible for any personal items.
- Program capacities are subject to change.
- OSC reserves the right to cancel or reschedule programs for any reason.
- Individuals requiring special accommodations should submit a written request to the Education Department 30 days prior to the start of the Camp session.

ESSENTIAL FUNCTIONS OF A CAMPER

We want every camper's experience at camp to be positive and memorable. To provide that experience, campers should be able to:

- Move independently from place to place
- Take care of their own personal needs
- Have effective interactions in their group-based environment (ex. buddy systems, group projects, etc.)
- Abide by the Camper Behavior Expectation Agreement (Grades K-6 campers only)

If you have any questions about the essential functions listed above, please contact us at 407.514.2112. We would be happy to talk to you about your camper's specific needs.

DRESS & PERSONAL ITEMS

Campers should dress appropriately for outdoor activities and messy play. Closed-toed shoes must be worn. A change of clothes (marked with camper's name) is suggested.

- Additional personal items should not be brought to camp (Preschoolers are permitted to bring one stuffed animal at rest/quiet time).
- OSC is not responsible for campers' personal items.

PRESCHOOL AGE REQUIREMENTS

Preschoolers must be 3 years old by December 1, 2025 and be able to use the bathroom independently in order to attend Summer Camp.

PRESCHOOL REQUIRED DOCUMENTS

The Preschool Summer Camp Program requires additional documentation for each camper due to the licensing requirements of our Preschool. The Department of Children and Family licensing standards require the following documents before or on the first day of camp for any child.

1. Current FL Certificate of Immunization (If attending 4 weeks consistently)
2. Current Health Examination
3. Enrollment Form and Medical Release
4. OSC Preschool Discipline Policy – acknowledgment
5. Distracted Adult* – acknowledgment
6. Know Your Child Care* – acknowledgment
7. Flu/Immunization – acknowledgment

**Preschool is a Licensed DCF Center C09OR0729*

PRESCHOOL PICK-UP & DROP-OFF

All Preschool Summer Camp attendees will need to enter and depart Orlando Science Center through the main parking garage and bridge located on Level 2.

- Caregivers/Authorized adults must accompany their child into the Preschool Summer Camp classroom. Please do not allow your child to walk to the door or leave by themselves.
- All caregivers/authorized adults are required to sign their child in and out as mandated by the Department of Children and Families (DCF) Standard 65C-22.
- If someone other than the caregiver or authorized adult is dropping off or picking up, please inform the Preschool office **407.514.2112**. Photo ID is required.

If you have a camper enrolled in another camp program at Orlando Science Center, you will still need to abide by the Preschool Camp Pick-up and Drop-Off Procedures a requirement of DCF, Statute 65C-22.001(10).

2026 SCHEDULE

Week	Preschool*	Kindergarten	Grades 1-2	Grades 3-4	Grades 5-6	4Roots Camps

PRESCHOOL PROGRAMS*

Members: \$325 (Pre-Sale: \$292.50)

General Public: \$365

Early and Late Care: \$100

OUR BIG BACKYARD

June 1-5

This summer, dive into the wonders of our backyard environment! Explore the vibrant world of birds, insects, animals, and plants. Discover where they live, what they eat, and who comes out during the day or night. With binoculars, bird guides, and fun exploration tools, every day is a new adventure! Let's uncover the magic of nature together!

INVISIBLE FORCES

June 8-12

Did You Know? Forces are all around us and influence everything we do! Join our exciting camp as we explore the invisible science of gravity, static electricity, magnetism, and sound. Using simple machines and everyday objects, we'll engage in fun STEM activities that spark curiosity and encourage observation. Let's discover the magic of science together!

DINOS IN DISCOVERY

June 15-19

Attention all pintsize paleontologists! Join us for a dino-mite adventure where we'll dig up fossils, learn to tell the difference between carnivores and herbivores, and track dinosaurs from the tiniest to the biggest that ever roamed our planet! Come explore the amazing prehistoric era with us - it's going to be a roaring good time!

YOUNG GARDENERS

June 22-26

Join us for a fun-filled garden adventure at our camp! Discover how to grow plants in all sorts of ways—without soil, water, or even light! We'll explore cool methods like hydroponics and greenhouses, use planting tools, and learn about the yummy fruits and veggies we can eat. Don't forget your garden hat and work boots as we dig into the amazing parts of plants that are good for you! Let's get growing!

NUTS AND BOLTS

June 29 – July 3

Join us for an exciting camp where budding engineers and architects can explore the wonders of building! Discover how structures stay balanced and how bridges are built as we unleash our creativity with LEGOs, magnetic tiles, bristle blocks, popsicle sticks, and more. Get ready to problem solve, create amazing structures, and have loads of fun! Don't miss out on this hands-on adventure! *LEGO is a registered trademark of the LEGO Group of companies which does not sponsor, authorize or endorse this site.*

SALT LIFE

July 6-10

Put on your scuba gear and join us for an exciting underwater journey! Travel along the East Australian Current with a friendly bale of sea turtles, discover how coral polyps munch on their meals, and meet the gigantic Blue Whale - the biggest mammal in the ocean! We'll explore glowing jellyfish, majestic underwater volcanoes, and so many surprises beneath the waves. Join us for a magical world of the sea!

A VERY COLORFUL WORLD

July 13-17

Unleash young minds' creativity at our vibrant Eric Carle Camp! Join us for a week of fun-filled exploration where stories come to life through imaginative art projects. Campers will strengthen fine motor skills, enhance color recognition, and dive into early literacy - all while creating their own unique masterpieces inspired by beloved tales. Creating art and exploring through play will great together!

GALAXY EXPLORATION

July 20-24

Strap in, little astronauts! Get ready for a fantastic journey to the Sun, Moon, and all the amazing planets of our solar system that we call home! At our Space Camp, you'll train like a real astronaut and build rocket ships and rovers. Blast off into fun-filled learning about the universe! Don't miss your chance to explore the stars!

KINDERGARTEN PROGRAMS

Members: \$325 (Pre-Sale: \$292.50)

General Public: \$365

Early and Late Care: \$100

DINO-MITE DISCOVERIES

May 28-29; June 29 – July 3; August 3-7

They stomp, they roar; there are so many dinosaurs to explore! Hop aboard the dinosaur train and become an excavation explorer as you learn about ancient creatures big and small. Embark on a journey of Jurassic proportions and take a walk on the wild side to dig up some dino-mite archeological discoveries.

STEM WITH FRIENDS

June 1-5; July 6-10

Follow the adventures of Rosie Revere, Engineer and friends as we explore what it means to work as a team! We'll use our engineering powers to build and test tall towers and create fabulous flying machines. Friends who STEM together, stay together! *Rosie Revere, Engineer* is a picture book written by Andrea Beaty, illustrated by David Roberts, and published by Abrams Books for Young Readers, which does not sponsor, authorize or endorse this site.

TRANSPORTATION STATION

June 8-12; July 13-17

ALL ABOARD this "STEAM" powered locomotive, as it calls engineers high and low to help fix all things that go! Whether its planes soaring through the skies or racing cars zooming on by, you can bet we'll be there to help! Hop on quick and bring your toolkit. Next stop, Transportation station!

LEGO-OLGY

June 15-19; July 20-24

Ready, set, build! Let your imagination run wild while creating cars, buildings, and more. Test the basic principles of engineering as you work together to plan the ultimate LEGO city. LEGO is a registered trademark of the LEGO Group of companies which does not sponsor, authorize or endorse this site.

RAPID RESPONSE: SCIENCE HEROES

June 22-26; July 27-31

Calling all Units! We're looking for Science Heroes to help aid in sticky situations high and low. Track storms from miles away, learn how firefighters extinguish flames, and become an electrical engineer as you help balance and fix the grid. In this camp, we explore the science behind everyday heroes and how they keep our community safe. Grab your hard hats and your toolkits as we get to the scene, for there's no problem we can't fix as the Rapid Response team!

GRADES 1-2 PROGRAMS

Members: \$325 (Pre-Sale: \$292.50)

General Public: \$365

Early and Late Care: \$100

POKÉMON EVOLVE

May 28-29; June 29 – July 3; July 27-31

Are you ready to complete your own Pokédex? Explore the amazing animals and environments that are the inspiration for Pokémon. Master the skills you'll need to create your own fantastic creatures and catch 'em all! *Pokémon* is a registered trademark of Nintendo, which does not sponsor, authorize or endorse this site.

MAGIC SCHOOL BUS ADVENTURES

June 1-5; July 6-10; August 3-7

A normal camp with the Frizz? No way! Hop on board and get ready to explore this one-way ride to parts unknown. Let the bus do its stuff as you surf on a soundwave, dive into oceans deep and wide, swing through the stars, and shrink to get a better look inside. Seatbelts on! It's time to take chances, make mistakes, and get messy together because the Magic School Bus is ready to go! *Magic School Bus* is a trademark of Scholastic Inc; this camp is inspired by (but not affiliated with) the *Magic School Bus* books.

ENGINEERING TOGETHER

June 1-5; June 29 – July 3

Buildings and bridges and towers, oh my! Use Legos and household items to explore the tools and techniques needed to make super strong structures that stand up to any test. *LEGO* is a registered trademark of the LEGO Group of companies which does not sponsor, authorize or endorse this site.

EWV! THAT'S GROSS

June 8-12; July 13-17

From snot to earwax or worms to carnivorous plants this week is surely going to make you say EWWW! Engage with creepy crawlers, smelly smells, and the slimiest of bodily functions while learning the science behind it all. Knowledge is power and this knowledge is gross. Prepare your senses for the most disgusting adventure of the summer!

PET VETS

June 8-12; July 13-17

What do you do when an animal has a toothache or needs to go to the doctor? When our furry (and scaly) friends get sick, the veterinarian is there to make them feel better. Spend a week learning how to care for your favorite animals and discover the science behind keeping them healthy!

JUNIOR ASTRONAUT

June 15-19; July 6-10

Are you ready to explore the stars? Learn all about space and the technologies that help us explore the great beyond! Design a rocket to deliver people and materials to the moon, engineer a lander to help them get to the surface safely, and design a safe living space for the scientists in their lunar colony!

EXPLORE WITH SPIKE

June 15-19; July 20-24

Reimagine your world with LEGO Spike! Test your STEM skills by building everything from a high-tech playground to a friendly robot helper with LEGO Education SPIKE Essentials® robotics! Discover the basic principles of robotics by putting gears, levers and wheels to work. *LEGO is a registered trademark of the LEGO Group of companies which does not sponsor, authorize or endorse this site.*

SPY KIDS

June 22-26; July 20-24

Calling all secret agents! Your mission, should you choose to accept it, is to learn about the world of spy gadgetry! Swap coded messages with your fellow agents and learn how to crack a laser security system while exploring the science and technology that help make secret agents successful.

ACTIVATE CREATURE POWERS

June 22-26; July 27-31

Dive into the Creaturepedia and explore the secret lives of Earth's most extraordinary animals. Travel from the darkest depths of the deep sea to the highest altitudes, exploring the powers of a peregrine falcon, electric eel, chameleon, and more during this wild week as budding biologists. Creature powers...ACTIVATE!

GRADES 3-4 PROGRAMS

Members: \$325 (Pre-Sale: \$292.50)

General Public: \$365

Early and Late Care: \$100

ROBLOX CREATIONS: CODE, ANIMATE, PLAY!

May 28-29; June 22-26; July 27-31

Obsessed with the world of Roblox? Bring your Roblox creations to life while learning about game design, 3D animation, and coding. We'll explore speed and gravity in your own designed "Obby" and test how the physics of our favorite Roblox experiences compare to the world around us. *Roblox is a registered trademark of Roblox Corporation, which does not sponsor, authorize or endorse this site.*

SUPERHERO SCIENCE

June 1-5; June 29 – July 3; July 20-24

Push yourself to soar higher, go further, and be faster as we launch into the science behind your favorite superheroes! Harness the power of the elements, create superhero gadgets, and race to super speeds while working as a team to overcome obstacles. It's the science behind superpowers!

SPACE MADNESS

June 1-5; July 6-10; July 27-31

Are you mad for space science? We are! Join us as we explore our solar system and its place in our universe. Discover how the Sun provides energy for living things, learn how humans can live in space, and design robots that could function on other planets!

ROBOT REVOLUTION

June 8-12; June 29 – July 3; August 3-7

Bring robots to life with LEGO SPIKE! Dive into the basics of robotic design and programming as you build robots that can perform tasks, solve problems, and even hop on their own! Code Spheros to navigate an exciting obstacle course and discover how robots can be used to help clean up and protect our environment. It's a hands-on adventure that brings robotics, coding, and real-world applications together! *LEGO is a registered trademark of the LEGO Group of companies, which does not sponsor, authorize, or endorse this site.*

FAIRGROUND PHYSICS

June 8-12; July 13-17

Get ready to explore the science that makes the fair come alive! From solar-powered rides to tubular slides, explore the world of motion, force, and energy behind some of our favorite rides through hands-on experiments and design challenges. Harness the power of gravity, friction and momentum power while you build and test your own mini attractions. With every twist, turn and loop, Science has never been so thrilling!

MAKER MANIA

June 15-19; July 6-10

Join us at the intersection of creativity and technology as we turn our camp into a Maker Space! Create imaginative designs using a printer you can hold in your hand. Wear your art on your sleeve as we tinker with circuits to fashion wearable tech. If you can dream it, you can make it!

NEW!

STEM THROUGH TIME

June 15-19; July 13-17

Join us for a STEM-filled camp where we travel back in time and blast off into the future, exploring how science has shaped our world for thousands of years. Build Roman aqueducts, design towering skyscrapers, and discover how coding and robots are shaping tomorrow! Each day brings a new journey as we see firsthand how science and humanity have grown and advanced together.

WIZARDS 101

June 22-26; July 20-24

Get ready for a magical adventure where science meets wizardry! Campers will unlock their inner wizards as they create glowing circuits, brew color-changing potions, and even grow their own magical plants. Who's ready to cast some spells and spark their curiosity?

GRADES 5-6 PROGRAMS

Members: \$350 (Pre-Sale: \$315.00)

General Public: \$390

Early and Late Care: \$100

EXPLORATION SPACE

May 28-29; June 29 – July 3

Blast off to the wonders of space! Dive into aerospace engineering, robotics, and astronomy as you design and build model rockets to explore our Solar System. Become an aerospace engineer and explore the cutting-edge technologies that will help humans live in space, like building lunar habitats and growing plants in space. Get ready for an out-of-this-world adventure!

SIMULATION ACADEMY*

June 1-5; July 6-10; August 3-7

Technology is all around us! Discover how simulation technologies are transforming fields like healthcare, gaming, aviation, and agriculture. Test your STEM skills while you learn about engineering, programming, and life-saving skills like medical procedures, pilot airplanes and drones, build 3D structures, design video games, and AI simulations. Train as a pilot, navigate airplanes and drones, and practice skills in medical simulations using VR, aviation simulators, and a drone cage. It's your time to innovate, create, and simulate!

**Includes a visit to AdventHealth University's Simulation Lab.*

EXPRESS YOUR TECH

June 8-12; July 13-17

Come express yourself and become a master maker as we dive into the world of DIY! Join the Maker community to explore LED wearable technology, 3D printing, woodworking and more as you learn to solve problems and design unique creations. Get ready to showcase your amazing work at the Maker Fair and complete your own business plan to launch your brand!

ECOPARK: PROJECT SUSTAINABILITY

June 15-19; July 20-24

Explore some of the ecosystems that make our planet special — from oceans and rainforests to swamps — through our Life exhibit. Discover how humans impact the natural world and step into the role of a citizen scientist, conducting activities like water sampling and testing alternative energy sources. Put your creativity to work by designing a new EcoPark exhibit that combines sustainable technology with conservation practices. Join the movement to help scientists understand, protect, and improve our world!

MYSTIQUE SCIENCE: FANTASY WORLD-BUILDING

June 22-26; July 27-31

3D Modeling, World-Building, and Engineering — Oh My! Step into new realms as you explore the science behind your favorite stories. Engineer amazing inventions, 3D print your own character models, and design habitats where your creatures can thrive. Discover how science fuels every great adventure and unlock the magic of creativity and technology working together. In Mystique Science, science is the ultimate superpower!

OSC OFFSITE CAMPS FOR GRADES 2-5

Orlando Science Center is thrilled to once again partner with 4Roots for Summer Camp, building on the success of last summer's program. OSC will offer seven weeks of camp at the 4Roots Farm Campus for Grades 2-5. Campers will enjoy an exciting, hands-on experience learning about conservation, sustainable farming practices, and agriculture careers.

Activities will include guided farm tours, exploring innovative plant growing technology in the greenhouse, and learning how to create nutritious snacks with the Culinary Health Institute. Don't miss out on this unique opportunity to connect with nature and gain valuable skills for a sustainable future!

OSC CAMP AT 4ROOTS FARM

Members: \$325 (Pre-Sale: \$292.50)

General Public: \$365

ECOTECH ADVENTURES

June 8-12; July 6-10; July 27-31

Get ready to discover how technology helps us study and protect nature! In this camp, you'll explore STEM careers as you discover how engineering and robotics are shaping farming and food systems. Explore renewable energy to balance the grid, use 3Doodlers to create gardening tools, and investigate nature to find real-world solutions to challenges that farmers face every day. Dive into hands-on projects, creative building, and outdoor exploration; you'll see how science and technology work together to keep our farms and our planet healthy!

OPERATION GREEN: CONSERVE AND SUSTAIN

June 15-19; July 13-17

The future of Planet Earth is in your hands; conservation and sustainability are the key! Discover the work of conservation scientists as you explore sustainable agriculture practices, composting, and the importance of pollinators in crop production. From germinating sprouts, testing water samples, using the power of nature and educating the community, campers will join the movement to support scientists in protecting the natural world!

EARTHWORKS NATURE LAB

June 22-26; July 20-24

Be inspired by nature and let your creativity shine! Discover the wonders of plants, gardening, healthy food, agriculture, and resource conservation while exploring fun craftsmanship skills. Use your imagination and the environment as inspiration to create 3D printed planters, build vertical gardens and design and build a mini greenhouse. Use the 3Rs (reduce, reuse, recycle) and your maker spirit to turn everyday materials into amazing eco-friendly creations! Immerse yourself in hands-on gardening projects and imaginative nature-inspired art; this camp encourages curiosity, problem-solving, and a love for the Earth.
