SCIENCE NIGHT LIVE

An 18+ Event

SATURDAY,
MAY 30

8:00 – 11:30 PM

SPECIAL GUEST PRESENTATIONS

Color, Code, and Brainwaves

8:30

Presented by Austin Lubetkin, Artist and Engineer

Blending art, neuroscience, and lived experience, this artist takes you inside a remarkable journey shaped by POTS, autism, and synesthesia. Discover how that perspective led to the creation of a low-cost brainwave keyboard system, how synesthesia fuels creative thinking, and how his patented neurological authentication method emerged as a new defense against impairment and deepfake-era identity threats.

Digital Adventure Theater, Level 2

Limited Seating Available • Doors open 10 minutes before showtime.

Game Designer Talks: Behind the Tabletop

Hear how imagination, strategy, and bold choices become unforgettable games!

Keys to Designing Great Games
