

Dear Caregivers,

It is a pleasure to welcome your child to the Orlando Science Center's Summer Camps and *LEGO-ology for Kindergarten*. This week will be incredibly fun-filled and provide your child with a variety of hands-on, exploratory learning experiences. In order to help you discuss with your child what he or she has seen and done each day, we would like to give you an overview of the camp for this week.

Sincerely,

OSC Summer Camp Staff

LEGO-ology – Peek at the Week

Ready, set, build! Let your imagination run wild while creating cars, buildings, and more. Test the basic principles of engineering as you work together to plan the ultimate LEGO city. LEGO is a registered trademark of the LEGO Group of companies which does not sponsor, authorize or endorse this site.

Monday – LEGO Fun: Today, campers will be introduced to LEGOs while making LEGO name mosaics. Campers will also play some fun building games to get to know each other.

Tuesday – Everything is AWESOME: In their second day of camp, campers will learn about and build some awesome animals. They will also create a maze to navigate with a friend.

Wednesday – LEGO City: Today, campers will have some exciting engineering challenges with LEGO'S. Can you build a strongest bridge or a sturdy house? Let's find out!

Thursday – On the Move: On this day of camp, we will create and test working LEGO cars. Campers will end the day by learning about what robots can do and they will create pretend robots.

Friday – Construction Junction: During this day, campers will put their LEGO engineering skills together. Campers will use teamwork to design and create the ultimate LEGO city from the ground up!
