

ORLANDO SCIENCE CENTER

CORPORATE PARTNERSHIP PROGRAM

Partner with Orlando Science Center to align your brand with one of Central Florida's most trusted community institutions and open a world of possibility for telling your own story.

The Corporate Partnership Program is a customizable sponsorship program that recognizes companies through hands-on exhibits, STEM programs, and special fundraising events each year. Designed with your company's philanthropic priorities in mind, this program also supports workforce development efforts in STEM education by directly impacting educational programs, access, increased youth participation and development of new exhibits and experiences that reach over 680,000 guests annually. As a corporate partner, you are supporting the Science Center's mission to *inspire science learning for all*.

Inspiring Science Learning for All

Education

Education is our largest staffed department at OSC, hosting daily Field Trips, daily Offsite Programming, monthly Homeschool Programming, and our on-site STEM Preschool.

Neighborhood Science

A community initiative providing underserved youth throughout Central Florida high-quality STEM education for multiple days each week in afterschool programs and community centers.

Exhibits & Programs

OSC features four floors of exhibits, including an observatory, and daily programs including live science shows, maker activities in The Hive: A Makerspace, pop up science displays, and films in two theaters, including our 8-story dome theater.

Summer & Break Camps

All summer-long, OSC hosts hands-on STEM Summer Camps for children entering Preschool through Grade 6. Break Camps run when local schools are out of session, including teacher workdays and holiday breaks.

Science for All

Our accessibility program, Science For All, offers reduced admission and annual Memberships to individuals and families from low-income households.

Offsite Programming

OSC brings interactive, hands-on learning activities on the road to share with students, teachers, schools, and families, reaching over 150,000 students and teachers annually.

SIGNATURE EVENTS

Science & Wine

A unique evening of food and wine with live music, gourmet hors d'oeuvres, wine tastings from diverse growing regions, and fun wine-themed science activities and seminars.

Science on Tap

A beer festival in Loch Haven park featuring distinguished beers from around the world and artisanal craft brews alongside live science demonstrations and local brewing experts.

Spark STEM Fest

An annual multi-day interactive celebration that ignites interest in STEM through compelling and educational hands-on experiences, exhibits, and interactions with STEM professionals and exploration of fulfilling career opportunities.

ADDITIONAL EVENTS

OSC After Dark

OSC's 21+ Halloween Party and fundraiser featuring an open bar, costume contest, karaoke, bingo, trivia, shows, and more all while enjoying OSC all decorated for Halloween!

Science Night Live

A popular 18+ event series offered quarterly where adults enjoy everything they love about the Science Center with a grown-up twist while enjoying light bites and adult beverages.

Themed Weekends

OSC celebrates science throughout the year with unique programming and STEM related activities to keep visitors engaged and excited about learning all year long with themed activities including workshops, presentations from special guests, demonstrations, exhibit booths, and more.

Themed Weekends include: Astro Fest, Paleontology Party, Make Fest, Mess Fest, and more.

PROGRAMMING & EXHIBITS

Traveling Exhibits

Orlando Science Center presents a variety of premier STEM-based traveling exhibits throughout the year to provide our visitors new and diverse learning opportunities. These seasonal exhibits, which are typically onsite for 3-4 months at a time, are selected to appeal to a wide and diverse audience, and focus on specific topics, with an emphasis on interactive and thought-provoking experiences.

The Dome by Dr. Phillips Charities

Planetarium Shows

Daily shows include one feature planetarium film and one live show conducted by the OSC programs team allowing guests a journey through our solar system and our universe.

Dome Films

A rotating schedule of science films that will awe and inspire guests in an immersive cinematic experience with 8K digital projection.

Live Shows

Running multiple times per day, Science Live combines creativity, mindboggling science, and popular themes in the Digital Adventure Theater and Discovery Stage. Shows include popular demonstrations such as KABOOM, How to Feed Your Dragon, Cool Science, and more.

AUDIENCE & OUTREACH

Orlando Science Center has a robust marketing, public relations, and social media outreach campaign to help generate awareness about our events and exhibits. In addition to our extensive digital and social media reach outlined in detail below, we also reach over 680,000 individuals annually, including over 14,000 Member households. News coverage pertaining to our events, programs, and exhibits are frequently picked up by various media outlets as well.
