

### **Aircraft Basic Science, Eighth Edition**

This textbook is a valuable resource for students of aviation technology that provides updated information needed to prepare for an FAA airframe and powerplant maintenance certification. This expanded edition includes recent advances in technology, such as the use of composite aircraft materials, with revised examples and figures to more accurately reflect the state of the industry.

### **Flight: The Complete History of Aviation**

Take a sky-high journey through the Wright brothers' first powered flight, to Concorde's final voyage, to the tragic crash of the Columbia, and more, in this stunning book packed with information on the history of aviation.

### **Helicopter Game**

Get ready for a true test of your helicopter flying abilities! Helicopters 2 is a fun and addicting helicopter flying game where you must skillfully navigate a little chopper through a series of tricky platform challenges.

### **Flight Simulation Game**

In Airplane Simulator Island Travel, it is your job to safely navigate across the globe by visiting lots of different islands. Experience the ultimate freedom as you take to the skies in this immersive flight simulator game. This is not easy as it is designed to replicate the challenges of the real world of flying an airplane!

### **Aerospace History Timeline**

Learn how today's aerospace world evolved from the earliest dreams of flying to the 12-second airplane flight that gave humanity its wings to a planet driven by aerospace and now venturing ever deeper into space.

### **Paper Survive Game**

Begin your dream of a career in the aviation industry here. Paper Survivor is a true flying extravaganza with lots of different challenges that you will need to pass! Get your paper plane ready for take-off!

### **Helicopter Rescue Simulation**

Are you ready to fly? You better be because Helicopter Rescue Operation 2020 is the ultimate helicopter challenge, and it is calling your name. Time to fly high and save some people!

### **Wings Over Indiana**

As special one-hour edition of the Emmy Award winning science series Indiana Expeditions, host Rick Crosslin travels across the state and to the NASA Dryden Flight Research Center in California, to look at Indiana's connections to the history and science of aviation.
