

Monday – Ancient Rome: Journey to ancient Rome and discover the technology of the past. Campers will design Roman art like the ancient masters, engineer functioning aqueducts, and explore the volcano that froze a city in time.

Tuesday – Ancient Egypt: Get ready to uncover secret messages, model Egyptian landmarks, and create an ancient time telling instrument! Campers will explore art, architecture, and technology of ancient Egypt.

Wednesday – Ancient China: Few ancient civilizations have contributed more to the world than that of ancient China! Let your imagination soar as you engineer your own ancient toy and navigate your way with ancient technology.

Thursday – Ancient Maya: Campers will explore the ancient world of Maya by discovering their amazing calendar systems, sculptures, and an ancient ball game.

Friday – Ancient Greece: Campers conclude their week by using modern technology to get a bird’s eye view of what ancient wonders look like today. They will then dive into ancient Greece by engineering catapults and participating in at-home Olympics!
